

OEM Supply

About OEM Supply

AAR OEM Supply stocks and distributes factory-new electrical components and assemblies to commercial, business and general aviation, and military / defense operators worldwide.

Our differentiators

- Multi-year fixed pricing
- 30+ product lines
- 30M+ components in stock
- Kitting and assembly
- 10+ locations worldwide
- Experience, technical sales team

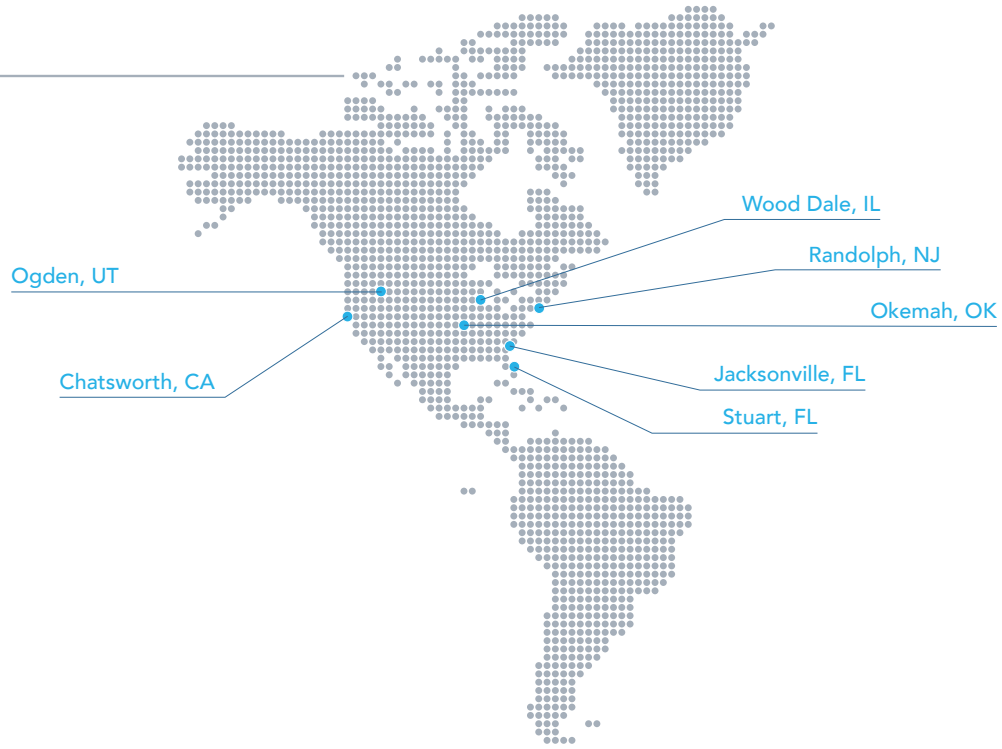

Selected inventory and core capabilities

- Interconnect products
- Switches
- Relays and contactors
- RF interconnects and components
- Active and passive components
- Antennas
- Through hole and surface mount technology
- Box builds
- System integration and assembly
- Build to print
- Conformal coating
- Complex and low loss cable assemblies

Trusted distributor

Americas

EMEA and APAC

**We ensure our customers
get the right part at the right time.**

The OEM Supply team provides logistics support, inventory management activities, life-time-buy support, long-term agreements, inventory buy-back and other value-added services to our OEM partners and customers. Our team manages multiple distribution locations to ensure our customers get the right part at the right time.

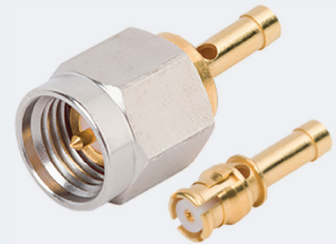

Featured products

Mil circular connectors

| | |
|------------------|-------------------|
| MIL-DTL-5015 | D38999 Series III |
| D38999 Series I | D38999 Series IV |
| D38999 Series II | MIL-DTL-26500 |

RF connectors

| | |
|--------|--------|
| M39012 | M24308 |
| M55339 | M83513 |
| M39030 | M49142 |

Switches

| | |

OEM Supply – NewVac | CAGE Codes 63127 and 60118

With 40 years of experience, NewVac is a trusted leader in build-to-print and custom designed cable and wire harness assemblies for military and weapons applications. Backed by advanced front-end engineering expertise, we partner with customers from concept through production. We optimize interconnect design, guide material selection, enhance fit packaging, form, and function to meet demanding specifications.

Our high-reliability assemblies power mission-critical military applications across extreme environments from underwater to land to airborne applications. NewVac delivers precision-engineered solutions where performance, durability, and reliability are non-negotiable.

Core capabilities

- Molded or repairable constructions
- High flex / flat custom cables
- Power, data, voice, signal, RF
- RF coaxial, Twinax, and Triax
- Multi-leg and hybrid
- Custom design connectors
- Underwater submarine cables
- Oil filled pressure compensated
- Complex electronic harnesses
- Micro miniature and nano assemblies
- Electric box build
- Custom connector inserts
- 360 global shield terminations
- 100% inspection, test, and qualification capabilities
- Soldering per J-STD-001 Class 3
- IPC-620 Class 3
- In-house tooling and fixtures
- Hydrostatic pressure chambers

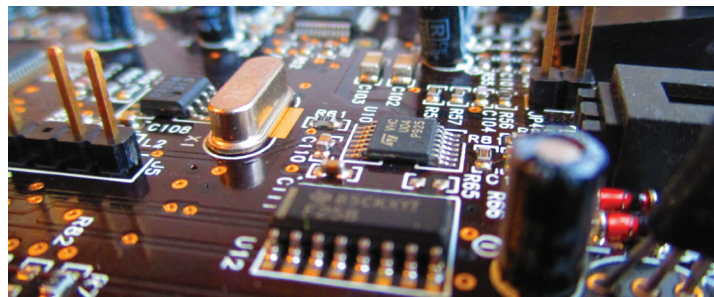

Electronic manufacturing (India & United States)

OEM Supply delivers flexible, end-to-end manufacturing through a strategically located network of circuit card assembly facilities. We support cost-efficient production from our Bangalore operations while meeting the stringent demands of high-reliability and defense programs at our Oklahoma and New Jersey sites. Across these locations, our team of 100+ skilled professionals operates within 30,000 square feet of advanced manufacturing space. Our comprehensive capabilities include CCA, wire harness manufacturing, full box build integration, and kitting services—delivering end-to-end assembly solutions.

Core capabilities

- Multiple SMT lines
- PTH through hole technology
- Cable harness assembly
- Box build
- System integration and assembly
- Parylene deposition system
- NADCAP
- X-ray Inspection
- Class 10,000 clean room
