

OTTO Product Change Notification

CHANGE NOTIFICATION #: 10112019
ISSUE DATE: October 11th, 2019
PRODUCT(S) AFFECTED: P9C Series
EFFECTIVE DATE: October 11th, 2019

Dear Valued OTTO Customer:

The purpose of this notification is to inform you of a change to the P9C series pushbutton switches. Please review this information in detail. Should you have any questions or require any additional information please contact your OTTO Regional Sales Manager or call us at (847) 428-7171 or email us at info@ottoexcellence.com.

Description of Change:

The P9C series pushbutton switches are being discontinued, effective immediately. The P9C pushbutton will be replaced by the P9L pushbutton which is a logic level only version of OTTO's P9 series switch.

Impact on OTTO Customers:

The P9C and P9L are mechanically equivalent and are both logic level only switches. The P9L offers a shorting bar contact system, like the P9C, plus offers NO, NC and 2-circuit contact systems. The P9L offers more configuration options as well as the same tactile feel of the P9.

Validation Testing Performed:

The P9L switch has been tested and passed all validation test requirements.

Effective Date:

The change will affect all product orders placed after October 11th of 2019. All previously placed orders will be honored.
